

Personal Vision Profile

Tony Mckeown

Vision Statement

“To draw people to *Partnership* by the *Process* of equipping to an improved quality of life, through *Passion* and life *Purpose*.”

Mission Statement

“To bring a message of hope to a people of destiny”

I have a dream! A dream that empowers me to action in all areas of life. It is a dream that I wake to each day. A dream that directs my decision making and supports me through the challenges in life. A dream that grows stronger with every new day. A dream that has taken me to over twenty Nations and all five continents. A dream that propelled me from an average life to a life of fulfilment.

I have a dream that inspires, empowers, equips and resources me. It creates life, resists fear and generates momentum. It goes beyond the norm, shakes apathy and builds permanence into daily life. It initiates, validates and activates a sense of purpose in life. I have a dream, a dream that takes hopeless situations and engrafts them with a spirit of hope and destiny. This dream transforms an average person, into a person of significance. It lifts them above the circumstances, and takes them beyond their current best into a realm of excellence.

I have a dream to seek out dreamers, and world shakers. This dream challenges me to build people that partnership in networks. I have a dream to discover the undiscovered, to discuss the un-discussable, to develop the under developed and delight in the results. I have a dream to leave the world in a better state as a result of my existence. I have a dream that invigorates me to live my life's dream with and through others who have a dream.

I have a dream that laughs in the face of impossibility, smiles at the companion of doubt, and puts an arm around the shoulder of fear. I have a dream that uses failure to equip, disappointments to build expectation and heartache to build compassion. I have a dream where individuals become pregnant with purpose, expectant with hope and conceive a spirit of destiny. I have a dream that invests into others, banks on effective change, and puts shares in people of purpose. I have a dream that believes in you!

Do you have a dream?
